New NPDCI Resource on Inclusion: Research Synthesis Points on Quality Inclusive Practices

The National Professional Development Center on Inclusion (NPDCI) has released a product that provides brief descriptions and supporting references for evidence-based and promising practices that support early childhood inclusion. Research Synthesis Points on Quality Inclusive Practices is organized in three major sections corresponding to the defining features of high quality early childhood inclusion as described in Early Childhood Inclusion: A Joint Position Statement of the Division for Early Childhood (DEC) and the National Association for the Education of Young Children (NAEYC). This product may be used to inform work in a variety of contexts including professional development, policy development, planning, advocacy, and grant writing.
